Election/Restrictions

1. Upon further reviewing the previous election restriction that mailed on 09/24/2002, it is found that claim 36 is a more comprehensive claim and should be examiner with any group of groups I, II, III or IV therefore, a new election/restriction is made in this action wherein claim 36 as a linking claim will be examined with any selected group.

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-5 drawn to a method of needling fabric, classified in class 28, subclass 107+.
- II. Claims 6-13, drawn to a method of washing fabric, classified in class 510, subclass 276.
- III. Claims 14-21, drawn to a method of coating fabric, classified in class 106, subclass various.
- IV. Claims 22-35, drawn to a method for treating fabric with a solution, classified in class 8, subclass 115.51.

2. Inventions I and II, III or IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are unrelated and have different modes of operation and different functions such as method for needling fabric as claimed in claims 1-5 and 36 (Group I) and methods for preparing a moisture barrier fabric by applying a treating compositions as claimed in claims 6-13 (Group II), 14-21 (Group II) and claims 22-35 (Group III).

Art Unit: 1751

3. Inventions II and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are related to the method of washing fabric using a composition comprising detergent and sodium carbonate as claimed in claims 6-13 (Group II) and method of coating fabric using a composition comprising acrylic and polyurethane polymers as claimed in claims 14-21 (Group III).
4. Inventions II and IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are related to the method of washing fabric using a composition comprising detergent and sodium carbonate as claimed in claims 6-13 (Group II) and method of treating fabric using a composition comprising stainblocker, wetting agent and fluorochemical compound as claimed in claims 22-35 (Group IV).
5. Inventions III and IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are related to the method of coating fabric using a composition comprising acrylic and polyurethane polymers as claimed in claims 14-21 (Group III) and method of treating fabric using a composition comprising stainblocker, wetting agent and fluorochemical compound as claimed in claims 22-35 (Group IV).

Art Unit: 1751

6. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

7. A telephone call was made to Kristin Johnson April 29, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eisa B Elhilo whose telephone number is (703) 305-0217. The examiner can normally be reached on M - F (7:30-5:00) with alternate Friday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yogendra Gupta can be reached on (703) 308-4708.
